

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC32560
Name	D-Erythrose

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:
sales@dcchemicals.com

Chemical Properties

CAS	583-50-6
Formula	C ₄ H ₈ O ₄
MW	120.104
Storage	
Structure	 <p>The image shows the chemical structure of D-erythrose, a four-carbon aldehyde. The aldehyde group is on the left. The second carbon has a hydroxyl group (HO) on a dashed bond pointing up and back. The third carbon has a hydroxyl group (OH) on a solid wedge pointing down and forward. The fourth carbon is part of a hydroxymethyl group (CH₂OH) on the right. The word "Chiral" is written above the third carbon.</p>
