Chemical Properties

CAS	80-33-1
Formula	C ₁₂ H ₈ Cl ₂ O ₃ S
MW	303.16
Storage	
Structure	 <p>The image shows the chemical structure of Chlorfenson, which is 4-chlorophenyl 4-chlorophenyl sulfonate. It consists of two 4-chlorophenyl rings connected by a sulfonate group (-SO₂-O-). The chlorine atoms are at the para positions relative to the sulfonate group on each ring.</p>
