Chemical Properties

CAS	185517-21-9
Formula	C ₁₁ H ₂₂ O ₂
MW	186.29
Storage	
Structure	 <p>The image shows the chemical structure of Arundic Acid, which is 11-undecanoic acid. It consists of a long hydrocarbon chain with a methyl group (CH₃) at one end and a carboxylic acid group (COOH) at the other. The carboxylic acid group is shown with a carbonyl oxygen (O) and a hydroxyl group (OH) attached to the same carbon atom. The methyl group is labeled as CH₃ and the carboxylic acid group is labeled as COOH.</p>
