Chemical Properties

| | |
|-----------|---|
| CAS | |
| Formula | C ₂₄ H ₄₆ N ₆ O ₁₄ |
| MW | 642.66 |
| Storage | |
| Structure |  <p>The structure shows three piperazine rings (six-membered rings with two nitrogen atoms) and a central citrate moiety. The citrate moiety consists of a central carbon atom bonded to three carboxylate groups, which are further coordinated to the nitrogen atoms of the piperazine rings.</p> |
