Chemical Properties

CAS	
Formula	C ₈ H ₁₆ N ₃ O ₃
MW	329.14
Storage	
Structure	 <p>The chemical structure shows a linear polyethylene glycol (PEG) chain with three ether linkages. The chain starts with an iodine atom (I) at one end and ends with an azide group (N₃) at the other end. The azide group is represented as N=N=N with a positive charge on the terminal nitrogen and a negative charge on the adjacent nitrogen.</p>
