Chemical Properties

CAS	
Formula	C8H18BRO6P
MW	321.1
Storage	
Structure	 <p>The image shows the chemical structure of Bromo-PEG3-phosphonic acid. It consists of a phosphonic acid group (HO-CH2-CH2-O-PO3H2) attached to a three-unit polyethylene glycol (PEG3) chain, which ends with a bromine atom. The structure is drawn in a skeletal format with explicit hydrogen and oxygen atoms.</p>
