

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC35927
Name	[2-(Diethoxy-phosphorylamino)-ethyl]-phosphoramidic acid diethyl ester

Tel: +86-21-58447131

Chemical Properties

CAS	
Formula	C ₁₀ H ₂₆ N ₂ O ₆ P ₂
MW	332.27
Storage	
Structure	 <p>The chemical structure shows a central ethyl chain (CH₂-CH₂) connecting two phosphorus atoms. The left phosphorus atom is double-bonded to an oxygen atom and single-bonded to two ethoxy groups (-OCH₂CH₃). The right phosphorus atom is double-bonded to an oxygen atom, single-bonded to two ethoxy groups, and single-bonded to the nitrogen atom of the ethyl chain. The nitrogen atom is also bonded to a hydrogen atom.</p>
