Chemical Properties

| | |
|-----------|---|
| CAS | |
| Formula | C7H14O4S |
| MW | 194.25 |
| Storage | |
| Structure |  <p>The chemical structure shows a thiol group (-SH) on the left, connected via a two-carbon chain to an oxygen atom. This oxygen is part of a polyethylene glycol (PEG) chain consisting of two repeating units of -CH2-CH2-O-. The chain ends with a carboxylic acid group (-COOH).</p> |
