Chemical Properties

CAS	
Formula	C ₂₇ H ₄₄ O ₆
MW	464.64
Storage	
Structure	 <p>The image shows the chemical structure of C₂₇H₄₄O₆. It is a complex polycyclic molecule with a central ring system and several side chains, including a long alkyl chain and a branched chain with multiple oxygen atoms. The structure is drawn in a skeletal format with explicit hydrogen and oxygen atoms.</p>
Purity
