Chemical Properties

CAS	
Formula	C ₁₇ H ₂₉ NO ₃ S
MW	327.48
Storage	
Structure	 <p>The chemical structure shows a central benzene ring with a carbonyl group (C=O) at the top position. A hydroxyl group (OH) is attached to the bottom position. A propylsulfanyl group (-S-CH₂-CH₂-CH₃) is attached to the left side. A propylamino group (-NH-CH₂-CH₂-CH₃) is attached to the right side. The amine group is part of a secondary amine structure.</p>
