Chemical Properties

CAS	
Formula	C ₈ H ₁₅ NO ₄
MW	189.21
Storage	
Structure	 <p>The image shows the chemical structure of (S)-2-Aminooctanedioic acid. It is an eight-carbon chain with a carboxylic acid group at each end. The second carbon from the right has an amino group (-NH₂) attached with a wedge bond, indicating its (S) configuration. The carboxylic acid groups are shown as HO-C(=O) at both ends.</p>
