| | |
|-----------|---|
| CAS | |
| Formula | C ₂₇ H ₃₆ N ₂ O ₄ |
| MW | 452.59 |
| Storage | |
| Structure |  <p>The chemical structure shows a central benzene ring with a chlorine atom at the 1-position, a methyl group at the 2-position, and a carboxylic acid group at the 3-position. A propyl chain is attached to the 4-position, which is further substituted with a piperidine ring and a methyl group. The piperidine ring is labeled 'Chiral'.</p> |
