Chemical Properties

CAS	
Formula	C ₂₈ H ₂₂ O ₆
MW	454.48
Storage	
Structure	 <p>The image shows the chemical structure of (-)-ε-Viniferin, a complex polyphenolic compound. It features a central chromane ring system with multiple hydroxyl groups and a side chain containing a trans-stilbene moiety. The structure is labeled with 'H O' and 'OH' groups at various positions.</p>
