Chemical Properties

CAS	
Formula	C ₂₇ H ₃₂ O ₁₅
MW	596.54
Storage	
Structure	 <p>The image shows the chemical structure of Eriodictyol 7-O-neohesperidoside. It consists of a flavone core (eriodictyol) with a neohesperidose sugar moiety attached at the 7-position. The structure is highly detailed, showing all atoms, bonds, and stereochemistry. A label 'Chiral' is placed above the sugar moiety.</p>
