

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC36378
Name	Tenellin

**Tel:** +86-21-58447131

## Chemical Properties

CAS	
Formula	C <sub>21</sub> H <sub>23</sub> NO <sub>5</sub>
MW	369.42
Storage	
Structure	 <p>The image shows the chemical structure of Tenellin, a complex organic molecule. It features a central pyridine ring with a hydroxyl group at the 2-position and a 4-hydroxyphenyl group at the 3-position. Attached to the 4-position of the pyridine ring is a side chain containing a ketone group, a double bond, and a terminal methyl group. The structure is labeled 'Chiral' and includes stereochemical indicators for the chiral centers.</p>
