Structure	 <p>The image shows the chemical structure of 16-Deethylindanomycin, a complex polycyclic molecule. It features a bicyclic core with a fused ring system, including a cyclohexane ring and a cyclopentane ring. Attached to this core is a side chain containing a pyridine ring, a double bond, and a hydroxyl group. The structure is labeled 'Chemical' and includes stereochemical indicators such as wedges and dashes to show the three-dimensional arrangement of atoms.</p>
