Chemical Properties

CAS	
Formula	C ₁₄ H ₂₂ N ₂ O ₂
MW	250.34
Storage	
Structure	 <p>The chemical structure shows a diazirine ring (a three-membered ring with two nitrogen atoms and one carbon atom) attached to a long, zigzag hydrocarbon chain. The chain ends with a terminal alkyne group (C≡CH) on one side and a terminal aldehyde group (CHO) on the other.</p>
