

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC36446
Name	(±)-γ-Tocopherol

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	
Formula	C <sub>28</sub> H <sub>48</sub> O <sub>2</sub>
MW	416.69
Storage	
Structure	 <p>The image shows the chemical structure of (±)-γ-tocopherol, a long-chain polyunsaturated fat-soluble vitamin. It consists of a chromanol ring system with a phytyl side chain. The side chain has three double bonds in a specific configuration. The structure is drawn in a skeletal format with carbon and hydrogen atoms explicitly labeled.</p>
