Chemical Properties

CAS	
Formula	C ₂₈ H ₄₈ O ₂
MW	416.69
Storage	
Structure	 <p>The image shows the chemical structure of (±)-β-Tocopherol. It consists of a chromanol ring system with a phytyl side chain. The chromanol ring has a hydroxyl group at the 6-position and a phytyl chain at the 2-position. The phytyl chain is a long, branched hydrocarbon chain with methyl groups at the 2, 6, 10, 14, and 18 positions. The structure is labeled with 'H-C' and 'OH' groups.</p>
