Chemical Properties

CAS	117414-74-1
Formula	C ₈ H ₁₅ N ₂ O ₅ P
MW	250.1908
Storage	
Structure	 <p>The chemical structure shows a central piperazine ring. One nitrogen atom is substituted with a prop-1-en-2-yl group. The other nitrogen atom is substituted with a propionic acid group, which is shown with a wavy bond to indicate its chiral nature. The propionic acid group is labeled 'Chiral' and has a carboxylic acid group (-COOH) attached to the propyl chain.</p>
