Chemical Properties

CAS	4005-51-0
Formula	C ₂ H ₃ N ₃ S
MW	101.127
Storage	
Structure	 <p>The image shows the chemical structure of Aminothiadiazole, which is a five-membered heterocyclic ring containing one sulfur atom and two nitrogen atoms. An amino group (H₂N) is attached to the ring. The structure is drawn in a skeletal format with double bonds between the sulfur and one nitrogen, and between the other two nitrogens.</p>
