Chemical Properties

CAS	517-09-9
Formula	C ₁₈ H ₁₈ O ₂
MW	266.34
Storage	
Structure	 <p>The image shows the chemical structure of Equilenin, a complex polycyclic molecule. It features a fused ring system consisting of a five-membered ring, a six-membered ring, and a benzene ring. A hydroxyl group (-OH) is attached to the benzene ring. The structure is labeled with 'C11a1' and 'O H'.</p>
