

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC32358
Name	Estradiol cypionate

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	313-06-4
Formula	C <sub>26</sub> H <sub>36</sub> O <sub>3</sub>
MW	396.57
Storage	
Structure	 <p>The image shows the chemical structure of Estradiol cypionate. It consists of a steroid nucleus with a hydroxyl group at C3, a ketone at C17, and a cypionate ester group at C17. The cypionate group is a cyclopentane ring attached to a propyl chain, which is further attached to the ester oxygen. The structure is labeled with 'H O', 'C H O', and 'C H O' at various positions, and 'C17' near the ketone group.</p>
