Chemical Properties

CAS	16846-24-5
Formula	C ₄₂ H ₆₉ NO ₁₅
MW	828.006
Storage	
Structure	 <p>The image shows the chemical structure of Josamycin, a macrolide antibiotic. It features a large 14-membered macrolide ring with multiple hydroxyl groups and a complex side chain. The side chain includes a chiral center, a methyl group, and a hydroxyl group. The structure is labeled with 'H-C', 'C-H', 'O-H', and 'Chiral'.</p>
