Chemical Properties

CAS	1031367-64-2
Formula	C ₂₄ H ₂₅ NO ₃
MW	375.468
Storage	
Structure	 <p>The chemical structure of MC-70 is a complex organic molecule. It features a central piperidine ring system. One nitrogen atom in the piperidine ring is substituted with a 4-(4-hydroxyphenyl)phenyl group. The other nitrogen atom is substituted with a 2,6-dimethylphenyl group. The 2,6-dimethylphenyl group has two methyl groups (CH₃) attached to the ortho positions relative to the nitrogen atom.</p>
