

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC32510
Name	Aluminum phthalocyanine disulfonate disodium

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:

Chemical Properties

CAS	68637-19-4
Formula	C ₃₂ H ₁₄ AlClN ₈ Na ₂ O ₆ S ₂
MW	779.0451
Storage	
Structure	 <p>The image shows the chemical structure of Aluminum phthalocyanine disulfonate disodium. It features a central aluminum atom coordinated to four nitrogen atoms in a porphyrin-like ring system. Two of the phenyl rings of the phthalocyanine are substituted with sulfonate groups (-SO₃Na).</p>
