Chemical Properties

CAS	5836-29-3
Formula	C ₁₉ H ₁₆ O ₃
MW	292.33
Storage	
Structure	 <p>The chemical structure of Coumatetralyl consists of a coumarin core. At the 3-position of the coumarin ring, there is a tetralin group (a benzene ring fused to a cyclohexane ring). At the 4-position of the coumarin ring, there is a methyl group. The coumarin ring has two carbonyl groups (C=O) at the 2 and 3 positions.</p>
