Chemical Properties

CAS	38677-85-9
Formula	C ₁₄ H ₁₁ F ₃ N ₂ O ₂
MW	296.24
Storage	
Structure	 <p>The chemical structure of Flunixin is shown. It consists of a central benzene ring. At the 1-position, there is a trifluoromethyl group (-CF₃). At the 2-position, there is a methyl group (-CH₃). At the 3-position, there is an amine group (-NH-). At the 4-position, there is a pyridine ring. At the 5-position of the pyridine ring, there is a carboxylic acid group (-COOH).</p>
