Chemical Properties

| | |
|-----------|---|
| CAS | 57202-76-3 |
| Formula | C ₁₇ H ₂₂ N ₂ S |
| MW | 286.43 |
| Storage | |
| Structure |  <p>The chemical structure shows a complex polycyclic system. It features a benzene ring fused to a five-membered ring containing a nitrogen atom (NH). This is further fused to a six-membered ring containing a nitrogen atom (N) with a methyl group (CH₃) attached. A side chain is attached to the six-membered ring, consisting of a methylene group (-CH₂-) linked to a sulfur atom (-S-), which is in turn bonded to a methyl group (-CH₃). Stereochemistry is indicated with wedges and dashes at the ring junctions.</p> |
