Chemical Properties

CAS	2032-65-7
Formula	C ₁₁ H ₁₅ NO ₂ S
MW	225.306
Storage	
Structure	 <p>The chemical structure shows a benzene ring with a methyl group (H₃C) at the top position, a methylsulfanyl group (H₃C-S-) at the bottom-left position, and a methyl group (CH₃) at the bottom position. An acetamido group (-NH-C(=O)-CH₃) is attached to the ring at the top-right position via an oxygen atom.</p>
