Chemical Properties

CAS	1477482-50-0
Formula	C ₁₆ H ₁₈ N ₄ O
MW	282.347
Storage	
Structure	 <p>The chemical structure of Suprafenacine consists of a piperidine ring fused to a pyrazole ring. The pyrazole ring is substituted at the 5-position with a carbonyl group (-C(=O)-). This carbonyl group is further substituted with a methylene group (-CH₂-), which is in turn connected to a nitrogen atom. This nitrogen atom is part of a methyleneamino group (-NH-CH₂-) that is attached to a phenyl ring. The phenyl ring has a methyl group (-CH₃) at the para position relative to the methyleneamino group.</p>
