

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC32997
Name	Sofalcone

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:
sales@dcchemicals.com
order@dcchemicals.com

Chemical Properties

CAS	64506-49-6
Formula	C ₂₇ H ₃₀ O ₆
MW	450.53
Storage	
Structure	 <p>The image shows the chemical structure of Sofalcone, a complex organic molecule. It features a central benzene ring with a ketone group at the top. This ring is connected via a double bond to another benzene ring, which is further linked to a side chain containing a double bond and a methyl group. The structure is rendered in a ball-and-stick model with labels for atoms.</p>
