Chemical Properties

CAS	133025-23-7
Formula	C ₂₄ H ₃₃ N ₃ O ₂
MW	395.547
Storage	
Structure	 <p>The chemical structure shows a central piperazine ring. One nitrogen atom of the piperazine is substituted with a 4-methoxyphenyl group. The other nitrogen atom is substituted with a 2-(2-phenylpropanoyl)ethyl group. The 2-phenylpropanoyl group consists of a propanoic acid chain where the alpha carbon is substituted with a phenyl ring and a methyl group.</p>
