Chemical Properties

CAS	
Formula	C ₉ H ₉ NS
MW	163.23
Storage	
Structure	 <p>The chemical structure shows a benzene ring attached to a two-carbon chain, which is further attached to a nitrogen atom double-bonded to a carbon atom, which is double-bonded to a sulfur atom. The SMILES string is <chem>N=C=S</chem> attached to a benzene ring via a two-carbon chain.</p>
Purity
