

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC33135
Name	HE-2500

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

**Email:**

## Chemical Properties

CAS	112859-71-9
Formula	C <sub>19</sub> H <sub>27</sub> FO
MW	290.42
Storage	
Structure	 <p>The chemical structure of HE-2500 is a complex polycyclic system. It features a central six-membered ring fused to a five-membered ring on the left and a six-membered ring on the right. The five-membered ring has a carbonyl group (C=O) and a fluorine atom (F) attached. The six-membered ring on the right has a double bond and a methyl group (H-C) attached. The central ring also has a methyl group (H-C) attached.</p>
