## Chemical Properties

CAS	660846-41-3
Formula	C <sub>19</sub> H <sub>28</sub> N <sub>2</sub> O <sub>5</sub>
MW	364.44
Storage	
Structure	 <p>The chemical structure shows a central piperidine ring. One nitrogen atom of the piperidine ring is substituted with a 2-(4-chlorophenyl)acetamide group. The other nitrogen atom is substituted with a tert-butyl carbamate group. The tert-butyl group is shown with its three methyl groups explicitly drawn.</p>
