Chemical Properties

CAS	
Formula	C ₂₅ H ₃₂ N ₆ O ₃
MW	464.57
Storage	
Structure	 <p>The chemical structure of MRK-740 is a complex molecule. It features a central piperazine ring system. One nitrogen atom of the piperazine is substituted with a 4-cyanopyridin-2-yl group. The other nitrogen atom is substituted with a 1,2,4-triazole ring. The triazole ring is further substituted with a 3,4,5-trimethoxyphenyl group. The structure is shown with several hydrogen atoms explicitly drawn, including those on the pyridine ring, the triazole ring, and the phenyl ring.</p>
