

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC33380
Name	Alloxan Monohydrate

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:

Chemical Properties

CAS	
Formula	C ₄ H ₄ N ₂ O ₅
MW	160.085
Storage	
Structure	 <p>The image shows the chemical structure of Alloxan Monohydrate. It consists of a central pyrimidine ring with two carbonyl groups (C=O) and two NH groups. Two water molecules (H₂O) are shown as separate entities, representing the monohydrate form.</p>
