Chemical Properties

CAS	1397-89-3
Formula	C ₄₇ H ₇₃ NO ₁₇
MW	924.09
Storage	
Structure	 <p>The image shows the chemical structure of Amphotericin B, a complex polyene macrolide. It features a large 14-membered macrolide ring with multiple hydroxyl groups and a side chain containing a diene system and a trimethylammonium group. The structure is labeled with 'DC33388' and 'Amphotericin B'.</p>
