Chemical Properties

CAS	174592-47-3
Formula	C ₂₆ H ₂₉ NO ₂
MW	387.52
Storage	
Structure	 <p>The chemical structure of (E)-4-Hydroxytamoxifen is shown. It features a central carbon-carbon double bond in the (E) configuration. One carbon of the double bond is bonded to a 4-(dimethylaminoethoxy)phenyl group and a 4-hydroxyphenyl group. The other carbon is bonded to a methyl group and a phenyl group.</p>
