Chemical Properties

CAS	1187-84-4
Formula	C ₄ H ₉ NO ₂ S
MW	135.18
Storage	
Structure	 <p>The chemical structure shows S-Methyl-L-cysteine. It consists of a central chiral carbon atom bonded to a methylamino group (NH₂), a methylsulfanyl group (H₃C-S-), a carboxylic acid group (COOH), and a hydrogen atom. The carboxylic acid group is labeled as 'Chiral OH'.</p>
