

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC33678
Name	Caldan

Tel: +86-21-58447131
Fax: +86-21-61642470

Email:

Chemical Properties

CAS	15263-52-2
Formula	C ₁₈ H ₃₃ Cl ₂ CuN ₃ O ₃
MW	473.93
Storage	
Structure	 <p>The structure section displays four chemical representations. On the top left is the structure of Caldane, a bicyclic imine with a seven-membered ring fused to a six-membered ring, featuring a carbonyl group and an imine group. To its right is the structure of copper(II) chloride, represented as Cl-Cu-Cl. Below these are two more instances of the Caldane structure, one on the left and one on the right, likely representing different views or states of the molecule.</p>
