Chemical Properties

CAS	
Formula	C ₉ H ₈ O
MW	132.16
Storage	
Structure	 <p>The chemical structure shows a benzene ring attached to a propene chain at the 3-position. The propene chain has a carbonyl group (=O) at the 3-position and a terminal vinyl group (=CH₂) at the 1-position. The SMILES representation is <chem>C=C(C(=O)c1ccccc1)</chem>.</p>
Purity
