Chemical Properties

CAS	
Formula	C ₁₆ H ₂₂ O ₄
MW	278.35
Storage	
Structure	 <p>The image shows the chemical structure of Diisobutyl phthalate. It consists of a central benzene ring with two phthalate groups attached at the 1 and 2 positions. Each phthalate group is an ester linkage (-COO-) connecting the benzene ring to an isobutyl group (-CH₂-CH(CH₃)₂). The isobutyl groups are shown with their respective hydrogen and methyl substituents.</p>
