## Chemical Properties

CAS	
Formula	C <sub>20</sub> H <sub>26</sub> O <sub>4</sub>
MW	330.42
Storage	
Structure	 <p>The image shows the chemical structure of Dicyclohexyl phthalate. It consists of a central benzene ring with two carbonyl groups (C=O) at the 1 and 3 positions. Each carbonyl group is linked via an oxygen atom to a cyclohexane ring. The SMILES representation is <chem>C1CCC(CC1)OC(=O)c2ccccc2C(=O)OC3CCCCC3</chem>.</p>
