

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC33802
Name	alpha-Naphthylacetic acid

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

## Chemical Properties

CAS	
Formula	C <sub>12</sub> H <sub>10</sub> O <sub>2</sub>
MW	186.21
Storage	
Structure	 <p>The image shows the chemical structure of alpha-naphthylacetic acid. It consists of a naphthalene ring system (two fused benzene rings) with a -CH<sub>2</sub>-CH<sub>2</sub>-COOH group attached to the 1-position. The carboxylic acid group is shown with a double bond to the oxygen and a single bond to the hydroxyl group.</p>
