

## Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC33814
Name	Citraconic acid

**Tel:** +86-21-58447131  
**Fax:** +86-21-61642470

## Chemical Properties

CAS	
Formula	C <sub>5</sub> H <sub>6</sub> O <sub>4</sub>
MW	130.1
Storage	
Structure	 <p>The chemical structure of Citraconic acid is shown. It is a five-carbon chain with a double bond between the second and third carbons. The first carbon is part of a carboxylic acid group (COOH). The second carbon has a methyl group (CH<sub>3</sub>) attached. The third carbon is part of the double bond. The fourth carbon is part of another carboxylic acid group (COOH). The fifth carbon is part of the double bond.</p>
