

Certificate of Analysis

Target	Products>>Novel inhibitors
Cat.No	DC33821
Name	Isovaleric acid

Tel: +86-21-58447131

Chemical Properties

CAS	
Formula	C ₅ H ₁₀ O ₂
MW	102.13
Storage	
Structure	 <p>The image shows the skeletal structure of isovaleric acid. It consists of a four-carbon chain. The first carbon (left) is bonded to three methyl groups, labeled as H₃C and CH₃. The fourth carbon (right) is part of a carboxylic acid group, shown as a double bond to an oxygen atom and a single bond to a hydroxyl group (OH).</p>
