## Chemical Properties

|           |  |
|-----------|--|
| CAS       |  |
| Formula   | C3H3N3O3   |
| MW        | 129.07   |
| Storage   |  |
| Structure |  <p>The image shows the chemical structure of cyanuric acid, which is a six-membered ring containing three nitrogen atoms and three carbonyl groups. The structure is a 1,3,5-triazine-2,4,6-trione. The atoms are arranged in a hexagonal ring with alternating nitrogen and carbonyl groups. The nitrogen atoms are labeled with 'H' and the carbonyl groups are labeled with 'O'.</p> |
