Chemical Properties

| | |
|-----------|--|
| CAS | |
| Formula | C ₁₆ H ₁₈ N ₂ O ₂ S |
| MW | 302.39 |
| Storage | |
| Structure |  <p>The chemical structure shows a benzimidazole ring system connected via a trans-alkene chain to a para-substituted benzene ring. The benzene ring has a methylamino group (-NHCH₃) at the para position. The benzimidazole ring has a carboxylic acid group (-COOH) at the 2-position.</p> |
